Description of Native Vinyl Plank Flooring

Native Vinyl Plank Flooring (Native) is a multi-layered resilient vinyl plank floor covering designed to be glued to the subfloor with a hard set adhesive. It is intended for use in heavy duty residential and commercial areas.

Native planks are 1524 mm in length, 5 mm thick and 228.6 mm wide. The surface wear layer is 0.7 mm thick.

Native is part of a system that includes Woodland or third party vinyl flooring adhesives, and may include combinations of third party moisture barriers, primers, and damp proof membranes.

Native has good slip resistance and is easily cleaned and impervious when installed in accordance with Woodland installation guidelines.

Sustainability

HMTX, the manufacturer, considers the sustainability of their products and business practices by actively engaging in the following.

- Declare label.
- Just label.
- Member of the International Living Future Institute's Just programme since 2018.
- In 2022, HMTX undertook and published the first materiality assessment. From 2023, it will begin to publish an annual sustainability and impact report.
